

Adding new table to the project:

Assume table name is mytable and it has

- 1] id field as primary key.
- 2] image field that stores the image name.
- 3] Normal fields field1 , field2 and field3.

Steps to add new table to the project:

1] create 2 files under Admin/views:

A] mytable_showall.html.php : to display the table of mytable as shown next

B] mytable_addnew_edit.html.php : to display add new record or update record form as shown next

2] create empty folder called mytable for images store under Admin/images

3] inside Admin/Adminroutes.php file add this line inside switch statement:

```
case('mytable')
    :$mytable=new TableDatabase($connection,$mytableaction,'id', 'image');break;
```

4] in Admin/Adminhome.html.php add this line:

```
<a href="Adminroutes.php?action=mytable_showall" class="btn btn-dark mt-5">Category Table</a>
```

A] mytable_showall.html.php

1] add the header as

```
<tr>
    <th>id</th>
    <th>field1</th>
    <th>field2</th>
    <th>image</th>
    <th>field3</th>

    <th>Controll</th>

</tr>
```

2] add the table fields as

```
<?php foreach($records as $record):$mysrc="images/mytable/".$record['image'];?>
    <tr>
        <td><?=$record['id']?></td>
        <td><?=$record['field1']?></td>
        <td><?=$record['field2']?></td>
        <td></img></td>
        <td><?=$record['field3']?></td>
        <td><a href="Adminroutes.php?action=mytable_addupdateForm&id=<?=$record['id']?>" class='btn btn-success'>Edit</a>
            <form method='post' action="Adminroutes.php?action=mytable_delete" class="d-inline-flex">
                <input type='hidden' name='id' value="<?=$record['id'] ?>">
                <button type="submit" class="btn btn-danger" onclick="return confirm('Are you sure you want to delete this item?');">Delete</button>
            </form>
        </td>
    </tr>
<?php endforeach;?>
<a href="Adminroutes.php?action=mytable_addupdateForm" class="btn btn-success">Add New Account</a>
```

B] mytable_addnew_edit.html.php

In form action replace by

```
<form action="Adminroutes.php?action=mytable_saverecord" method="post" enctype="multipart/form-data">
```
